OBJECTIVE

I am seeking for a new challenge in a full-time position as a Back-End or Full Stack Software Developer or Tech Lead that will allow me to utilize my diverse experience, creativity and collaboration skills, in a challenging environment that brings me opportunities for professional growth, to continuous learning and to deliver meaningful results.

PROFESSIONAL SUMMARY

Full Stack Engineer with a bachelor's in Computer Science, with more than 12 years of experience with .NET Core, C#, Azure, and Angular. I have worked in various companies, including those in Television, Insurance, Medical, Legal, and Engineering industries.

I have solid experience and focus on C#, .NET Core, Angular, and Azure. I have been responsible for defining new architectures, developing microservices, and migrating solutions to Azure. Additionally, I have participated in client meetings to understand their requirements and develop tasks in Azure DevOps, Jira, and Git for repository management. I developed the front-end using Angular and React.

As a resilient and problem-solving engineer dedicated to excellence and continuous growth, I have a proven track record of helping companies develop high-performance, user-friendly solutions. I am committed to completing tasks with meticulous attention to best practices.

TECHNICAL SKILLS HIGHLIGHTS

.Net Core	C#	Linq	Visual Studio
.Net Framework	Entity Framework	Lambda	Web Forms
Azure	Git	Rest API	Web Services
Asp.Net	JSON	SQL	XML
Angular	TypeScript	Azure DevOps	Visual Studio Code
React	MongoDB		

TECHNICAL SKILLS IMPROVEMENT IN PROGRESS

Python	Docker	NodeJS	AI

RELEVANT WORK EXPERIENCES

Attorney Live

Tech Lead, May/2023 – at moment, Remote (Brazil) – Virginia Beach – Virginia, US ▪ Remote.

Main responsibilities:

Lead the engineering team in developing new features, providing technical guidance, prioritizing tasks, and defining capacity planning. Additionally, I collaborate with stakeholders to align technical solutions with business objectives, drive architectural decisions, and ensure best practices in software development. I foster a culture of continuous improvement, mentor team members, and optimize development processes to enhance efficiency and scalability.

Major accomplishments:

▪ Lead Architect for Cloud Migration: Spearheaded the transition from legacy systems to a scalable, cloud-native microservices architecture on Azure, defining the technology roadmap for APIs and mobile solutions.

▪ AI & Innovation: Architected and delivered a scalable AI-powered legal assistant leveraging Claude 3.5 and a Retrieval-Augmented Generation (RAG) pipeline. Designed the end-to-end workflow, including document ingestion, embedding generation, vector search, contextual prompt orchestration, and response streaming. Integrated guardrails and domain validation to mitigate hallucinations and ensure legal compliance. The solution operationalized proprietary knowledge at scale, improving response accuracy and significantly reducing operational overhead.

▪ Full Cycle Development: Led the end-to-end development of high-performance web (Angular) and mobile applications, ensuring seamless integration between monolithic legacy systems and new microservices.

▪ Technical Leadership: Orchestrated requirements gathering with stakeholders and managed the technical backlog in Azure DevOps, bridging the gap between business needs and engineering execution.

▪ Quality & Performance: Proactively refactored codebases to improve readability and system stability, resolving critical bugs and optimizing API performance.

Skills and Technologies: .Net Core (C#), Angular, Azure, Ionic for Mobile, Python, AI

BROADSIGN

Senior Software Engineer, Jul/2021 – Feb/2023, Remote (Brazil) – Montreal - Canada ▪ Outsourcing by Evolve Squads.

▪ Responsible for helping the company to develop and maintain the solution into high-performance and easy to use.

▪ Create and Update API's and API's documentation.

▪ Analyze the requirements gathering.

▪ Development of new features for the monolith and microservices.

▪ Develop Bug fixes.

▪ Use Terraform to set the Azure environment.

Skills and Technologies: .NetCore(C#, F#), Azure, SQL Server, JetBrains(Rider, TeamCity, dotCover), Git, Terraform.

MELLOWOOD MEDICAL INC.

Full Stack Developer, Sep/2020 – Oct/2021, Remote (Brazil) – Toronto - Canada

▪ Responsible for helping the company to develop and maintain the solution into high-performance and easy to use.
▪ Create and Update API's and API's documentation.
▪ The main challenge is to secure fast responses and information integrity.
▪ Analyze the requirements gathering.
▪ Development of new features.
▪ Develop Bug fixes.
▪ Creation of new features documentation.
▪ Participated in the entire application lifecycle applying continuous integration (CI).
▪ Industry: Medical.
▪ Skills and Technologies: .NetCore(C#), Angular, Azure, SQL Server, CSS, HTML, Azure DevOps

GLOBALSYS

Full Stack Developer, Feb/2020 – Sep/2020, Vila Velha - Brazil

▪ Responsible for helping the company to develop and maintain customers solutions.
▪ The maim challenge was developing high performance and specific solutions for customers.
▪ Analyze the requirements gathering.
▪ Create and Update API's and API's documentation.
▪ Development of new features.
▪ Created the BackOffice and the Frontend from projects.
▪ Skills and Technologies: .NetCore(C#), Angular, React, Azure, SQL Server, CSS, HTML

TRENTIM

Full Stack Developer, Jul/2019 – Feb/2020, Remote - Brazil ▪ Outsourcing at ProActive S/A.

▪ Developing the best solutions with PPM Team.
▪ Building apps.
▪ Improving Solutions.
▪ Automating processes to our customers.
▪ Skills and Technologies: .NetCore(C#), Javascript, React, Angular, SPFx (SharePoint Framework)

PROPSERI

Systems Analyst, Sep/2018 – Jun/2019, Vitória - Brazil ▪ Responsible to develop .net and SharePoint solutions.

▪ Skills and Technologies: .Net(C#), SQL Server

BRQ

Systems Analyst and Developer, Feb/2018 – Aug/2018, Rio de Janeiro - Brazil

- I am responsible for developing SharePoint solutions using SharePoint Framework, Typescript, and Office Ui Fabric components.
- Skills and Technologies: .Net(C#), React, CSS, HTML

GLOBOSAT

Systems Analyst and Developer, Dec/2014 – Jan/2018, Rio de Janeiro - Brazil ▪ Responsible to develop new internal projects for the company.

- The main challenge was survey with the user, design the entire system, create the artifacts and develop the system ▪ Analyze the requirements gathering.
- Create and Update API's and API's documentation.
- Development of new features and projects.
- Created the BackOffice and the Frontend from projects.
- Managed development projects.
- Created functional and technical documentation.
- Responsible for the development, deployment and maintenance systems on .NET platforms.
- Participated in infrastructure planning, installation and configuration for production and test environments.
- Creation of supporting documentation.
- Skills and Technologies: .NetCore(C#), Angular, Azure, SQL Server, CSS, HTML

IMPETO

Developer, Dec/212 – Nov/2014, Rio de Janeiro - Brazil

- Responsible for analyzing and developing SharePoint solutions (2010 and 2013).
- Development using Visual Studio (2010 and 2012) using C #, .Net, Javascript, jQuery, SQL, HTML5 and CSS3 technologies.
- Development of custom and native Web Parts, Timer Jobs, Event Receivers, Power Shell.
- Responsible for leading team, client meetings and planning as implementation of applications, preparation of manuals and technical and administrative procedures and performance reports.
- Responsible for the development of projects, support and consulting on Microsoft SharePoint systems for company clients such as Concremat Engenharia, QGI Brasil SA and Mongeral Aegon Seguros e Previdência.Analyze the requirements gathering.
- Skills and Technologies: .Net(C#), Javascript, SharePoint

SISGRAPH

Developer, Mar/2011 – Nov/2012, Rio de Janeiro - Brazil

- Responsible for analysis, service and customer support.
- Administration and development of software improvements to attend to PETROBRAS.
- Analyze the requirements gathering.
- Development of new features.
- Skills and Technologies: .Net(C#), Javascript, Oracle Database

TIGE

Web Developer, Jul/2010 – Mar/2011, Taubaté - Brazil

- Responsible for the analysis, maintenance and development of WebServices, commercial automation, database and systems directed to the consultations of vehicular documentation and Individuals/Legal Entities.
- Analyze the requirements gathering.
- Development of new features.
- Skills and Technologies: .Net(C#), SQL Server, CSS, HTML

ONSET

Intern, Aug/2008 – Aug/2009, São Jose dos Campos - Brazil

- Perform studies and performance surveys on Microsoft products: SQL Server, Visual Studio and SharePoint Platform.
- Develop applications for high availability and high scalability for multinational Johnson & Johnson.
- Development of resources for SharePoint 2007, Workflows and Event Receivers in MOSS and WSP.
- Analyze the requirements gathering.
- Development of new features.
- Skills and Technologies: .Net(C#), Javascript, SharePoint

EDUCATION

Bachelor`s in Computer Science — 2012
Anhanguera, Taubaté, Brazil

Tech Lead Program — 2023
IFTL, SP, Brazil

MBA in Artificial Intelligence — 2023-2024
Exame College, SP, Brazil

Postgraduate in Full Cycle Architecture — 2025-2026
Full Cycle, SP, Brazil

Postgraduate in Software Engineer in Applied AI — 2026-Current
UNIPDS, SP, Brazil

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals – AZ-900
2023
